IN 33RD YEAR—EVERY WEEK SINCE 1905

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, SEPT. 9, 1938

NUMBER 45

Rev. P. D. O'Brien and Singer Joe Trussell Conducting Spiritual Revival

"Protracted Meetings", in the sense of the good old days are hard to find in this modern world. But a genuine spiritual revival is something that always appeals to American people, whether it be in Hamlin or some other nook of the nation.

Perhaps not in many years has a two-week meeting in Hamlin community been more thoroughly advertised than the one now in progress at the Hamlin Baptist Church. This fact is borne out by the wide area of country that is being represented at each of the evening services. Five night services have passed thus far and at each new faces have been seen from every denomination in this community. People just can not but enjoy great singing by a great leader and a great choir, and that is what everyone hears in the meetings going on at the Baptist church.

The pastor of the Stamford Baptist Church, Rev. P. D. O'Brien, is

doing the preaching with Evangelist Singer, Joe Trussell leading the singing. This is a community meeting and it will be impossible for anybody to attend any of these services without being lifted up spiritually. Rev. O'Brien is a very logical preacher, forceful in selections from the Bible, has a pleasing delivery, and propounds teachings from the Book in rapid succession to hold all groups and classes of people.

With plenty of windows and doors the house is not uncomfortable these September nights. Each morning service begins at 10:00 A. M. and lasts only one hour, and the evening services start promptly at 8:00 o'clock and last one hour. The first part is given to worship in song. Trussell is recognized as one of the greatest singers in all the South, and hearing is believing in this case. If you hear him once you will not want to miss a meeting.

MARRIED FIFTY YEARS

Monday was a great day for Mr. and Mrs. H. A. Stacy. Fifty years ago, H. A. Stacy was married to Miss Nina Huffman in Belton, Texas.

As a part of their celebration of their Golden Anniversary, two of their four children were present. Those absent were: Fred Stacy of Los Angeles and Claude of Brigham Utah. Their children present were Mrs. A. L. Talley of Dallas and Harry E. Stacy of Hamlin and Mr. Stacy's sister, Mrs. G. C. Spires and her daughter, Mrs. Berry White of Sweetwater were over for the big dinner.

Thirty-two years of that fifty years has been spent in Hamlin. They are really pioneers in Hamlin, coming here when the town was hardly one year old. Mr. Stacy has been a surveyor all this time and long before. And whoever said anything about this couple being old. Nobody can carry a surveyor's outfit farther and longer than Henry A. Stacy. When he goes out on surveys he usually asks for a couple of young bucks to carry the chain and most of the time, then, he is in the lead.

Here is wishing for Mr. and Mrs. Stacy many more years of happy married life.

Mrs. Joe Dillingham returned last Friday from a visit to California. While there she visited her daughter, Mrs. Don Hymer and Mr. and Mrs. John Dillingham of Shafter, California and a niece, Mrs. Albert Williams of Spreckles, California. She enjoyed her trip and thinks California a good place.

Mrs. Oliver Webb and little daughter, Shirley Faye spent the first of the week in Merkel visiting relatives.

BRICK HOME

Something nice; six rooms (3 bed rooms), two baths; large closets, breakfast room; all the built-ins; double garage; for sale or rent. Day phone 168, or address, Box 115 Hamlin, Texas. (45-4t)

Mr. and Mrs. Hubert Toler of Longview were here this week to visit their son Holly Toler and family.

BOOSTER BAND ENTERTAINED WITH PICNIC

Mrs. L. E. Hines entertained the Plasterco Booster Band last Thursday with a picnic, in the Hamlin Park. Sandwiches and cold drinks were served. The mothers helping were Mrs. Glen Bond, Mrs. Roy Ray, Mrs. Hershel Ewing, Mrs. Floy Wallace and Mrs. Elam Ewing.

About thirty-five boys and girls enjoyed this outing. Everyone reported a delightful time and hoped for another picnic soon.

CARD OF THANKS

We wish to express our deepest appreciation for the kindness shown us at the death of our father and grandfather, J. E. Ogle. Also for the beautiful floral offering.

Especially do we thank Mr. and Mrs. Dick Cypept, Mr. and Mrs. Byrd and Mr. Bob Barrow.

May God bless you.

Mr. and Mrs. W. M. Trimmier, Rochester,

Mr. and Mrs. Urban Trimmier & son, Spur,

Mr. and Mrs. Paul Trimmier & Paula Sue, Goree,

Mr. and Mrs. Leslie Trimmier, Rochester,

Mr. and Mrs. H. C. Dennington, Littlefield.

Miss Viva Milstead left Friday of last week for Sonora where she will resume her work as a teacher in the public schools. Her sister, Miss Lola Milstead, returned Wednesday of this week to West Columbia where she will begin her fourth year as teacher in the public school of that city. Before leaving Miss Lola called at the Herald office and had the Hamlin Herald sent to both her and her sister so that they may keep informed on their home town and community.

It is always appropriate to sound warnings when there is danger. It is a common remark of people from cities to say, that it is harder to drive in Hamlin, than in the great towns. This is on Central Ave. It is also noticeable that right after a wreck people drive more carefully for a few days.

L. E. STONE FAMILY HURT IN CAR WRECK SUNDAY

Sunday seemed to be an unfortunate day for several Hamlin people. Mr. and Mrs. L. E. Stone and one daughter were on their way to Amarillo to visit a daughter, and between Aspermont and Jayton they ran into a culvert.

Information is that Mrs. Stone was looking at a road map and Mr. Stone turned to see something on the map and all of a sudden they jammed into one end of a concrete culvert. The crash must have been rather severe, as the car was a complete wreck. Mrs. Stone suffered most, having received a broken arm and nose. She is recovering satisfactorily, according to reports.

Mr. and Mrs. Stone have resided in Hamlin many years and have a host of friends here. Mr. Stone is connected with the telephone system.

Rev. H. W. Hanks, pastor of the Methodist church returned Wednesday from Bovina where he conducted a revival during the past ten days. Rev. Hanks must have enjoyed the coolness of the high altitude, for he says it was the highest meeting he ever held.

TWO AUTOS CRASH STREET CROSSINGS

To hear a terrible crash and then see a couple of nice looking automobiles turned topsy-tumble with groaning and bleeding men beneath, amidst the broken glass is a scene that one may imagine the people near the crossing of 4th Street and Alamo Ave., experienced last Sunday afternoon.

The Herald is glad to say that no one was killed, or seriously injured.

This crash came in the following manner: Bud Ferguson, in a Dodge car was going north on Alamo Ave., in his car were his brothers, Otis, Jim and Charlie Ferguson, and Charlie's son, and a relative, Mr. Rose of Stamford—a real car load of big strong men. These "boys" had been attending a family reunion at the home of Mr. and Mrs. John Ferguson, south of Hamlin, and after dinner, Bud, and those named, were going northwest of Hamlin to see some nice cattle.

Just before reaching 4th Street, another car driven by Jim Adcock, accompanied by a little boy, age 12, by the name of Weeks, was traveling west on 4th Street, headed for the base ball park. Mr. Adcock realizing the danger, he said he slammed on his brakes and his car skidded

on to give the Ferguson car a square "broadside." This tipped the Ferguson car over, maybe two or three times, however it stopped with the front pointing back south and upside down, with the occupants mixed up with the broken glass. Adcock evidently had set himself against the steering wheel so that he braced himself in the sudden stop. But the little boy plunged forward, striking his chin and his head against the windshield. He was badly cut and lost some teeth and plenty of blood.

In the Ferguson car, Charlie was the most dangerously injured. He suffered a number of broken ribs and for awhile it was thought he was fatally hurt. Rose and Jim Ferguson were also hurt.

The Barrow ambulance was called and the men were carried to the hospital. Rose was given first-aid and taken to his home in Stamford.

Latest reports say that all parties are recovering fine.

Right here let's make a few observations: Recently in Hamlin, our streets have been improved and travel is easy and fast. This all creates an extra hazard at crossings. Sometimes vision is short at crossings, and great caution should be given by all car drivers. Hamlin is a lucky town, as far as car wrecks are concerned. It is marvelous that we have so few crashes. Maybe the danger causes more caution.

It is always appropriate to sound warnings when there is danger. It is a common remark of people from cities to say, that it is harder to drive in Hamlin, than in the great towns. This is on Central Ave.

FARMERS SHOULD BE INTERESTED IN WILD LIFE, ON FARMS

Just what do you mean by "Wild Life?"

If wild life means quail, doves, various kinds of birds, and in some localities turkeys, should you be interested in that?

A movement is on in Jones and surrounding counties to organize as many interested persons as possible in the protection of wild life in this section.

Mr. Farmer, do you like to see

outsiders prowl in your fields after doves and quail? Do you like to see a fellow level his gun, in violation of law, as he passes along the road or highway and shoot into your pasture, or fields, kill and mangle game out of season? Do you. We say you do NOT.

Now then, the Extension Department of A. & M. College, is attempting to get interested persons to take steps to restore the wild game to the lands of Texas. That is the purpose of the call to Anson

on Wednesday night of September 14, of all persons who would like to enlist their farms in "Game Preserves." Mr. Farmer, you can do this by getting you a few signs, measuring one foot wide and two

feet long, with the "official" wording on it, for a sum not over fifty cents each. Get as many as you want at that price, and then stick them up where the would be hunter can see them. Ere long your place will be noted for its quail, where you and yours may use your own judgment in season as to the killing. It sounds simple, doesn't it?

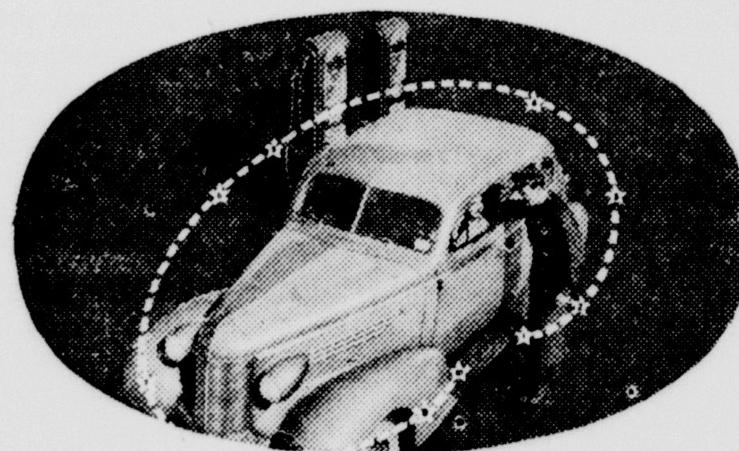

Folks, lets go back a few years. Do you remember how many quail were all over Texas? Again this state is becoming a field of grains, and bird life will restock if people will give them a chance, and that is the purpose of the county-wide effort to create new interest in "Wild Life" in Jones County . . . not only Jones, but all the surrounding counties. You see, it will be better the more farmers who "post" their lands. Get those signs, and influence your neighbors to do likewise, and lets widen out the space for wild life.

Some people think bird life has much to do with the fight on bug life. Bugs are great enemies of plant life and plant life is the basis of all human and animal life. Save the birds and kill the bugs.

When you come in for Fire-Chief you can be sure of this—at its price it will give every ounce of starting power, sprint and pull that any gasoline can give. And the extra services that go with it, make many motorists feel that if they don't stop regularly at Texaco Stations, they're missing something... So come in...

and get

CIRCLE SERVICE. Our modern way of serving you—performed thoroughly and efficiently in one quick trip around your car.

and get

REGISTERED REST ROOMS. When you see this sign you can be sure our rest rooms are completely equipped, regularly inspected, cared for. We pledge you this.

and get

COURTESY ALWAYS. We Texaco Dealers want to give you extra services to win your good will. You will find us always on the alert to help, always working to make your driving more enjoyable.

RECOGNITION OF TEACHERS YOUR FIRE BILL

George P. Hudson
LAWYER
Connected with Stinson, Hair, Brooks and Duke of Abilene
OFFICES: WAGGONER BLDG.
Hamlin, Texas Phone 32

—There is no demand more fundamental to the progress of education in pace with the times in which we are living than this adequate recognition, in a competitive society, of the financial value of the profession of education, and of the simple, human right of the educator to personal freedom in his personal life.— Robert Sproul, President of the University of California, in the Rotarian Magazine.

By the same token, it is you who must pay the bill for our collective national carelessness with fire and its hazards. And it is you who suffer when fire strikes.

Many of us mistakenly think that fire prevention involves the purchase of expensive and complicated equipment, plus an involved system of inspections of high-priced experts. That is true only in a minority of cases. A very large proportion of all fires occur in homes and on farms—and in these cases adequate fire prevention usually requires little expenditure of either time or money. Improperly stored inflammable liquids, uncared-for heating plants, amateur electric work, accumulated debris of various kinds in attics, basements, closets and out-buildings—these are major sources of fire. And these grave hazards can be done away with quickly and for little or nothing.

Next time you read of a fire, large or small, think of its cost as being partially paid by you. You pay it in decreased purchasing power, in community retrogression, in lost jobs, in higher insurance rates. Think of the thousands of such fires that constitute America's gigantic and inexcusable total waste.

Then answer this question: "Is the little effort that would make my property safe, worth while?"

The Cotton Season Is On; Industry Holds Spotlight

A VISIT TO THE COTTON OIL MILL

Perhaps one of the strangest things in all the cotton country is the fact that so many "natives" have seen and know so little about the greatest agricultural industry in the United States and for that matter, the entire world. Cotton Ginning Machinery—Cotton Compressing—Cotton Seed Products Machinery. Cotton, cotton, the basic fabric for clothing the millions of the world. Millions and millions of persons engaged in the raising, gathering, transporting, ginning, compressing, again transporting, and the processing of the seed for their oil and feed. It makes a most wonderful story.

If there is anything Ye Editor enjoys, it is smoothly running, well kept clean machinery. Then there are some other things that appeal to our fancy: For example, it is cleanliness about any establishment. We take the position that just because a factory has dust and dirt it should not continue that way, again we enjoy seeing something besides blank ground and maybe ragged unpainted fences about a place. And all this leads up to what we are talking about in this article.

Wednesday morning, we visited the Hamlin Cotton Oil Mill, to see and to learn what was going on out there this "new fall season." You know or do you? That once upon a time, cotton seed was wasted, because they were so much rubbish left after the lint was partly sawed from their wooly backs . . . dumped out to rot in some gully, or poor hill side. But one short visit out to Hamlin's modern cotton seed products plant will convince you that "there is gold in them seed."

To begin with, we must tell you that the Manager, J. E. Moody is glad to show interested parties around his plant. He has a right to be proud for he "has something there." To a fellow like the Herald man, the first thing that catches our attention is the appearance of the grounds and general neatness of the drive ways, and parking spaces about the many buildings. You know some people think you can't grow parks and greenery in Hamlin. Now

Moody knows better than that. He had an expert landscape man to lay out his grounds and out there right now is one of the beauty spots in this community. Grass, bordered by evergreen hedges, neatly laid out plots of roses, arbor vitae, verbena, and all of this is lighted with flood lights, (lets have a party.)

Every season, Moody is looking for the newest and latest equipment in seed processing. And right here lets go back and say that Mr. Moody is backed up by two pioneer seed processing men in West Texas, and the fellows who back the best are R. M. Simmons of Sweetwater and J. W. Simmons of Dallas, leaders in the development of the cotton oil mill industry, with Mills in Sweetwater, Rotan, Hamlin and maybe other places.

The brains of any well going industry are found in the management, the director and the office. If this end of an industry is short, then the plant soon fails. So after glancing at the outside of Hamlin's Cotton Oil Mill, one naturally goes in to get the "chaperone" to go places about the wheels, the belts, the tunnels, the warehouses, the elevators, the presses and the surging engines. Mr. Moody has a "parlor-like" office, and clerical rooms for himself and his assistants, who are N. M. Armstrong, Superintendent, Jay Fitzgerald, Cashier and Ernest Jenkins, Bookkeeper. And neatness and courtesy are the main points in the Hamlin Cotton Mill offices.

Did you ever take the rounds at this mill? Mr. Moody and Mr. Armstrong are pleased to show their plant. And when you go, just ask all the questions you care to, and you'll get an answer.

The first thing necessary for a cotton oil mill is SEED. Now Hamlin's mill is so situated that it gets the seed right off the gins. Great truck loads of seed come one after another, all day after the gins start . . . and Wednesday you could tell that the gins had started. Mules have faded out of the picture, almost completely, and it is well that they have, for if a mule-drawn "wagon" was to pull up under the dumping shed, we wonder what would happen when that electric outfit began to elevate their front end up to about 45 degrees. You see a mule must have the back end free for defense and if he has to stand on that end, he can not kick. You see that dumping equipment is a long, strong movable concern that takes any kind of truck load of seed, engine, chassis and everything at once, and no sooner than stopped, and anchored, there is a whirring and before you can say Jack Robinson, the seed are pouring out of the back end of the truck right on top of a whirligig that twists the seed across, up and down and again across, and into a shaker where the cleaning takes place, and then up and across to the duster, some more cleaning, down into the gins where lots of good mattress cotton is gleaned then over into some more "seed skinning machines" and finally they reach a cracking machine, stripped almost naked as a picked bird. After the hulls are cracked they pass on and are given a shake here and an other there, so that every possible bit of the mat is taken from the hulls, and the hulls by force of air go one way and the meat another. Before you realize it the meat of the seed are cooking in a revolving tank by steam that is automatically controlled. Gosh, cooking cotton seeds smell good . . . maybe that is why colored boys like to run the cooked stuff out and mold it into cakes and then shift them into powerful presses . . . a gadget is turned, and up goes the presses and down flows the oil into trenches and on into tanks, settling and draining and going on its way to the loading racks. Those black boys work in steamy heat and sweat and like it. Not an inch of walking is lost, not a second of time wasted. After the meal is formed into cakes within powerful coverings of porous cloth and pressed, a black boy grabs them and the hot pressed cake is "stripped" and while the cloth is stacked for another run the cake goes into an automatic trimmer, recently installed, where the ends and corners are sawed and shaved, and pass on into a cracker where the cake is blocked into cubes and elevated to a storage room for further process-

Special Prices On All Used Cars DURING SEPTEMBER--THEY ARE PRICED TO SELL HAMLIN MOTOR COMPANY

PHONE 77

HAMLIN, TEXAS

ing to meet the demands of stockmen. Maybe small cubes are wanted Saturday night and Sunday by maybe meal will result. This season Mr. Moody is installing an air conveyor to take cracked cake to the big storage house, then later when they want to regrind or convert it into meal, the air flow will be reversed and back the air will take the cake to the grinding rooms. You can't run everything on hot oil but out at the oil mill they do use plenty of hot air.

There is no use in trying to tell everything one sees that is interesting out at the mill, just go and then begin to think where, how, why and what about the labor needed to make things come true. One thing recent trip impressed us greatly, was the fact that from time to time new things are invented to stop loss of time, loss of energy and material. That extracting machine just going in called an "Expeller" is a supplemental machine to squeeze out the oil that has formerly been going to waste from the ends of the eakes, that are now trimmed automatically.

Mr. and Mrs. L. O. Steel were called to Winters last Saturday by the serious illness of Mrs. Steel's mother, Mrs. J. R. Cooke. They remained till Tuesday and at that time she was still very sick.

In less than 5 years the cold storage locker systems for fruits, meats and vegetables has grown until community units are in operation in 24 states. Many families who use the lockers prefer them to canning or preserving.

All measures to control soil erosion have at least one aim in common—to increase the amount of water soaking into the land and to reduce the amount that runs off.

Two plantings of Chinese cabbage at 15 day intervals will assure a regular supply of this vegetable from the fall garden.

Character is higher than intellect. A great soul will be strong to live, as well as to think.—Emerson.

To my mind, the best and most faultless character is him who is as ready to pardon the rest of mankind, as though he daily transgressed himself; and at the same time as cautious to avoid a fault as if he never forgave one. — Pliny the Younger.

Stout Lady: "What kind of exercise? would you recommend?"
Doctor: "Push yourself away from the table three times a day."

DIVINE UNREST—Little homes, little bank accounts, little educations, are all very well in themselves provided they don't drug us with a false sense of having reached the end of the road of achievement instead of merely being at the beginning of it, and provided we don't allow those who have ceased trying, to rob us of the "divine unrest" of which the poet speaks—Let us enjoy the things which we have, but let us not be content with them. Let us love every inch of the tiny mortal homes which we now inhabit, but, at the same time, let us dream of intellectual dwelling places bounded only by infinity and roofed over by the limitless sky. Not contentment but aspiration is the food of the giants of our coming generations—S. S. Schnetzler, author and educator, in the *Rotarian Magazine*.

Good Credit Is LIKE GOOD HEALTH

Many men and women do not appreciate it until they have lost it.

The Credit you command rests largely on one thing. It is not the position you hold, the property you own, nor the money you have in the bank, but the prompt payment of your bills.

FLAT TOP-
SOUTH SIDE NEWS

(By Nancy O'Neal)

Little Joyce Lavern Mullin, daughter of Mr. and Mrs. Alvie Mullin of Flat Top community, is reported to be doing reasonably well at this time of writing. Joyce Lavern received a broken leg several days ago when she accidentally got in the way of an automobile.

Misses Dorothy Jane and Mary Lou Bailey are at home with their parents Mr. and Mrs. Eddie Bailey of Flat Top. The young ladies attended summer school at Denton.

Mr. and Mrs. Jack Smith and daughter, Patsy June of Flat Top, have been visiting her father, Mr. Neal Thompson of East Hamlin.

Miss Gladys Green of Gorman has been visiting friends in Flat Top community. Miss Green is the daughter of Mr. and Mrs. Henry Green who until the past year resided in Flat Top.

Mr. and Mrs. Silas Davenport and children, Mary Lou, Donald and Joe, of Flat Top have returned to their home after a two weeks vacation in various points in Texas. Mr. Davenport conducted the song service for a revival meeting in one place. Mr. and Mrs. Davenport have assumed their positions to teach in Flat Top school.

Mr. and Mrs. Jim Mullins of Stamford stayed last week with her son, Alvie Mullins of Flat Top to help take care of their grand daughter, Joyce Laverne.

Mr. and Mrs. Ray Bruner of South Side were guests of the Sedberry families last Friday evening.

Mrs. Dick Coon and children, Betty Fae and Teddy Raye, of South Side, were guests of Mr. and Mrs. J. W. Hines of Flat Top last Saturday.

The hour of crisis never makes or mismakes us: That hour shows forth what is in us.—John McAfee.

BOYD CHAPEL CHIRPS

(By Mrs. Earl Brown)

Mr. and Mrs. Judge L. Crow visited with Mrs. Wortham Crow, who is in the Snyder Hospital, Sunday. Mrs. Crow is recovering from an appendicitis operation.

Mr. and Mrs. F. L. Wood had as their guests Sunday: Creath Harris and daughter of Ft. Worth, Mr. and Mrs. Delbert Myles and daughter of Breckenridge, Homer Harris of Stamford and George Harris of Abilene.

Mr. and Mrs. Louis Brown moved to Hamlin, Monday.

The W. M. U. met on Monday afternoon of last week with a large crowd in attendance.

Jim Ferguson was in a car accident Sunday, but he escaped with only minor injuries.

Earl Brown and family returned Sunday from several days vacation in San Antonio and Austin.

Miss Polly Kelly returned home last week after spending several weeks with relatives in Comanche.

A large crowd enjoyed the singing in the home of Mrs. Jim Ferguson on last Wednesday evening. Mr. and Mrs. Reed of Nodale were guests of the Fergusons that night.

MC CAULLEY MATTERS

By JOHN P. HARDESTY

McCaulley public school opened Monday at 9:00 A. M. Following the singing of America, Rev. J. R. Bateman gave the invocation. Songs and piano numbers were given by the Moss sisters and several pupils of Mrs. N. D. Miers. Short addresses were made by Levi McCollum, representing the school board; Jno. P. Hardesty, J. R. Bateman, H. P. Powers, followed by the introduction of the other members of the faculty by Supt. D. L. Smith. Miss Crabtree, of Roby, is the only new member of the faculty. She takes the place of English teacher, formerly held by Wyleta Smith, who is on the faculty of the Amherst school this year. Several visitors were recognized, among these, Mr. and Mrs. Leldon Clifton. Mrs. Clifton, the former Kenna Rector, was a member of the local school faculty for the past five years. Mr. Clifton is the Principal of the Stith school in Jones county. Mrs. Clifton will teach in the Stith school this year. Others recognized and welcomed were Mr. and Mrs. Tate, parents of Miss Vera Tate, teacher in the local school, and their small son, Sammie, from Lubbock; Mrs. Annie Glover, Colorado, mother of Mrs. H. P. Powers, teacher of the primary grade; Mr. John B. White, principal of Swedonia school; Mr. Tarlton Willingham of Swedonia and others whose names we do not now recall.

We are glad to welcome Mr. and Mrs. W. W. Faulkenberry back as neighbors. They moved into their home last week.

Prof. W. A. Stephenson, wife and daughter were visitors among their kin and friends last week.

Mrs. Annie Glover, Colorado is a visitor in the home of her daughter Mrs. H. P. Powers and husband.

Late report is that Mrs. Willie Fancher, who was taken to Stamford hospital for treatment is improving.

Mrs. Ben Short returned Monday from Big Spring where she visited with Mr. Short's sister, Mrs. Frank Ford and family.

Mrs. Bonnie Bingham returned home Sunday from Brownwood where she has been at the bedside of a sister who was critically ill. Her sister is improving.

"Uncle Joe" Faulkenberry and wife are home from a three-weeks visit with kin and friends in Brownwood.

The George Dardens visited his father and family at Girard, Sunday. The Methodist congregation closed a two weeks revival meeting Sunday night. Much good was accomplished, and the sermons of Rev. U. S. Sherrill of Knox City were greatly appreciated.

Mrs. W. M. Keller, accompanied by Mrs. Turner Beard of Hamlin, left Tuesday for Dublin for a few days visit.

Mr. and Mrs. D. L. Nickless and daughter, Janie Jean, left Tuesday for their home in McAllen after spending the summer here.

Mr. and Mrs. G. W. Tate and son, Sammie, spent several days here and at Hamlin visiting relatives. They brought their daughter, Miss Vera down for the opening of the school. Miss Tate is on the school faculty.

A prenuptial shower was given at the home of Mrs. Dan Maberry last Friday afternoon in honor of her granddaughter, Waldene Pope, daughter of Mr. and Mrs. J. H. Pope who became the bride of Charles Herring, of the Hitson community, Saturday evening. The shower was sponsored by Mmes George Maberry and Ray Maberry.

Some 75 bales of cotton have been ginned by the two local gins to date. Farmers are not very optimistic about the yield, as the young cotton appears to be a failure. Insects eat off the forms as fast as they appear. The early cotton is turning out better than a third of a bale to the acre. Feed crops are abundant, but the price for feed is so low that it hardly pays to harvest it. Rain is needed to prepare the land for wheat planting.

We are anxious for this column to represent accurately and fairly the news of McCaulley. Your cooperation in getting full and accurate news items is greatly appreciated. If we get news twisted once and awhile it is because it is given to us that way.

The Fisher County B. T. U. will hold its session at Roby, Friday night of this week. The McCaulley B. A. U. will furnish the program. The next Worker's Conference of the Fisher Baptist Association is to be held with the Plasterco Baptist church, Monday after the third Sunday in September. Plasterco is a

MISS ELLEN GRAY AND
MR. ROY BRISTOW MARRIED

A surprise announcement was given in Hamlin Thursday morning when it was learned that Miss Ellen Gray and Mr. Roy Bristow were married.

The ceremony was at the home of the Methodist Pastor in Anson, on Wednesday afternoon at 5:30 o'clock.

Mrs. Bristow is a daughter of J. F. Gray, manager of New Deal Laundry in Hamlin, and during the less than two years residence in Hamlin she has made many friends here. Mr. Bristow is a son of Mr. and Mrs. D. L. Bristow, prominent farmers of the Abbie community. He has been operating a service station in Hamlin but will now move to Anson where he and his wife will make their home. Mr. Bristow will be connected with the Conoco Oil Co. there.
